

# Human Research Protection Program (HRPP) Services

Revitalize your human research protection program with customized consulting support

We know that one size does not fit all. Each research program is different, with unique needs and distinct personalities. We take time to carefully understand your process and then apply our expertise to bring out the best in your program.

## Transform Your HRPP

Keep research moving forward during open vacancies, layoffs, and leaves

Improve compliance and collaboration across the HRPP community

Streamline and clarify IRB review processes

Achieve AAHRPP accreditation

Navigate federal inspections, evaluations, requests, and agency incident reports with ease

## Tailored Consulting Solutions

Transform your HRPP with solutions customized to your unique objectives. We look beyond the IRB to holistically evaluate the entire HRPP and provide support such as:

- Assessment and revitalization
- SOP gap analysis
- SOP development
- Education and training
- Staff augmentation
- Local IRB office management
- AAHRPP accreditation preparation and support
- Assistance with Federal agency visits/inspections/evaluation preparations
- Navigating communications with oversight agencies
- Ad hoc consultation

## Staffing

Retaining top talent is a perpetual challenge. If you have a vacant position or need a temporary capacity boost, we can help. Advarra provides interim HRPP staffing as well as IRB members who acclimate quickly to cover critical functions to keep your HRPP running smoothly.

## HRPP Health Check

Advarra experts perform a prescribed set of assessments when evaluating your HRPP. We focus specifically on core regulatory compliance and operational effectiveness of the HRPP, enabling your organization to make informed, programmatic decisions.

## Advarra GPS™

Let Advarra guide your organization through the challenges of operating a local IRB office. Experience the benefit of a turnkey solution that drives all local IRB office components, including staffing, communications, recordkeeping, reporting, training, sIRB, and more.

*"The team quickly assessed our research operations and identified areas for improvement. Thanks to the assessment, our HRPP is on its way to being world-class."*

– Executive director,  
*Office of Research Administration  
at a major health system*
