

Revitalize Research Administration

Streamline and fortify the research architecture of your health system

Strong research administration infrastructure is critical for success in today's ever-growing and consolidating research industry. Advarra® helps you move your research forward by recognizing and confronting the challenges of drug and device discovery.

Transform Your Research Administration

Advarra improves critical research components:

Clinical operations (GCP, GLP, ICH)

Research finance, contracting, and clinical billing

Coverage analysis and billing compliance

Human research protection programs

Acquired entity integrations

Technology transfer programs

Advarra Delivers Solutions to Your Administrative Challenges

Health systems and research institutes are committed to driving innovative improvements in patient care. Our expertise in administrative assessment and change management—along with practical tools and SOPs—drive revenue and ensure regulations-compliant research.

Interim Staffing Solutions for a Variety of Positions

If you have an experience gap or vacant position, we can help fill the void for roles like these and more:

- VP of Research Administration
- Director of Research Finance
- Director of Clinical Operations

Your Processes, Our Expertise

Advarra delivers reliable advice and solutions tailored to the needs of leading academic medical centers, health systems, research foundations, and independent research clinics.
