

# Research Billing Compliance Services

## National and localized coverage analyses and innovative process solutions backed by proven methods

Advarra Consulting's research billing compliance services use industry standard methods combined with national and regional coverage determinations and proprietary solutions to ensure your organization stays in compliance with Medicare billing compliance regulations.

### Leading Billing Compliance Solutions for Your Research

Regardless of your project's complexity, therapeutic or device niche, or number of sites, Advarra® is your partner in customized coverage analyses.

#### Knowledgeable and Committed

Our team adapts to your situation, building a relationship based on trust and dependability.

#### Region Specific

Receive coverage analyses that are customized to your Centers for Medicare and Medicaid (CMS) region.

#### Deep Expertise

Gain decades of experience in conducting coverage analyses for drug and device studies.

#### Custom Training

Advarra works with your research administration team to tailor your training and support needs.

#### Solutions for Sponsors

Accelerate your drug and device study startup by providing accurate, region-specific budgets to your sites.

#### Rapid Turnaround

Get prompt, accurate, and thorough reviews to meet demanding timelines.

## Solutions for Research Institutions

Advarra's team goes the extra mile, taking the time to understand each client's style, expectations, and unique billing playbook. Each research organization is unique: your study-related budgets are customized to your charge master, and the coverage analyses must be customized to your CMS region and institutional policies requirements. Our customized coverage analyses include both national and regional coverage determinations using proven budget methods developed from decades of combined experience.

Review Item		Submission to Decision
New coverage analysis for drug or device study	▶▶▶	4-10 business days
Study modifications/amendments	▶▶▶	1-2 business day
Oncology or gene therapy	▶▶▶	Add 2 days

## Solutions for Sponsors

Budget negotiations with sites are one of the top study startup delays. By providing sites with a budget that already conforms to national and regional Medicare coverage determinations, sponsors can eliminate weeks from budget negotiations, dramatically improve startup times, and enhance enrollment.

The Advarra billing compliance team will evaluate your drug, device, or biologics research protocol and develop a national and regional Medicare contract administrator-specific, CMS-compliant budget to send to your sites.

## Services and Capabilities

- Verification that the drug or device trial meets the definition of a qualified clinical trial eligible for reimbursement by CMS.
- Specific support for device manufacturers to ensure devices are properly registered.
- Detailed, region-specific budget templates for your sites.
