

# Advancing Clinical Research

## Integrated Research Compliance Solutions to Streamline Your Study

Advarra® provides institutional review board (IRB), institutional biosafety committee (IBC) and research quality and compliance consulting services with unprecedented clarity. Trust Advarra's integrated solutions and collaborative approach to advance clinical research.

### Achieve Compliance Without Complication

Access an extraordinary breadth and depth of regulatory compliance and human subject protection expertise, a client-centric service model and innovative technology. Advarra delivers convenient solutions performed with exceptional quality to help research meet the highest ethical standards and protect the rights and welfare of research participants.

#### Reviews™

##### IRB Services

Advarra's AAHRPP-accredited IRB supports every research phase in all major therapeutic areas. Offering native US and Canadian review capabilities, Advarra's experienced IRB reviewers and operational staff include experts with a deep understanding of and appreciation for the regulatory and scientific framework in which you work. By giving you faster access to information, easier record management and secure communication tools, Advarra reinforces high-integrity study conduct and regulatory compliance, all while streamlining the way your team communicates.

##### Technology

Advarra delivers next-generation technology tools that automate, streamline and expedite processes related to the IRB submission and review process, improving study startup timelines to help you reach critical milestones on time.

#### Consulting™

##### IBC Services

Advarra provides comprehensive review and support services for clinical trials involving recombinant DNA, synthetic nucleic acid molecules, genetic engineering and gene therapy, infectious microorganisms and hazardous biological materials. Our biosafety solutions include services for preclinical, clinical and non-clinical research.

##### Consulting

Advarra Consulting's experts work directly with your team to provide specialized global consulting and evaluation across a wide range of research services, including: clinical quality assurance (CQA), good practice guidelines (GxP) auditing and compliance, pharmacovigilance, vendor audits, regulatory inspection readiness and training, virtual QA services and HRP/IRB consulting.

#### Technology™
